#### IV. DEFINITIONS

- A. “Auxiliary enterprise”** means an entity that exists to furnish goods or services to students, faculty, or staff, and that charges a fee directly related to, although not necessarily equal to, the cost of the goods or services. Examples of auxiliary enterprises are college stores, rental facilities, institutionally operated catering or vending services, and laundries.
- B. “Contract”** is any binding commitment by or on behalf of the University, either oral or written, regardless of the title of the operative document or documents. For purposes of this policy, the term “Contract” includes, but is not limited to contracts, agreements, leases, memoranda of understanding (“MOU’s”), nondisclosure agreements, gift agreements, mutual aid agreements, settlement agreements, resolution agreements, letter agreements, and binding letters of intent. A commitment means, in addition to any financial commitment, any obligation to provide services, performance, information, or property (whether tangible or intangible). Examples of “contracts” that create a University Commitment are provided in the Definitions below, it being understood that such services will be valued by the amount of payment being paid to the University in return for such services. For example, if a contract states that the University will provide facilities in return for a \$5,000 payment, then the contract involves a \$5,000 University commitment.
- C. “Endowment Investment Agreement”** is any agreement or instrument pursuant to which funds from the University’s endowment or operating funds invested in the endowment are invested with or redeemed from an underlying investment manager or an investment vehicle. The term “Endowment Investment Agreement” shall include, but shall not be limited to subscription agreements, investment management agreements, limited partnership agreements, agreements of purchase and sale, side letters, and such other instruments and agreements as may be incident to an investment or redemption.
